DEAREST DARLING. TO H. B.

ne other one but you; r you my heart waspining; Oh hz me while I fondly tell you We you clasp this hand of raine,

W the stars above as shine. Liber sone only darring
Liber shus above us to night;
Make heart within my bosom
Thregain with wild delight.
Oh! whe coses know our meetin
Off thave seen us here before;
They false, but your darling.
Sue tlove you evermore.

Most vence your only darling?
In holes are burning tears;
But whicars to morrow twinkle,
Come in to calm her fears.
On gooke, darling; don't forget me,
Thought paths are severed wide;
In her days your only darling

Still witeep your only durling The Longt March made by an Affan Explorer.

The news the arrival of Lieutenant usund dollars. Immediately after- continent last fay. It was then his Here, as in Philadelphia and tained any hope at it would be sucions, not forgetting her youth, when ficult Journey that has eer yet been flood, nor the bitter blasting of her brightest hopes—those who know, as I do, the temptations that beset her, and eighth degrees of south latitule. He is the moral atmosphere she breathed in the first man who has ever trav-Parkersburg, will never believe her born eled from ocean to ocean within so an adventuress, and I shall never look short a distance of the squator. upon her face but will come to me in-tended from St. Paul de Loanda, in atitude 5 48', to the mouth of the Zambeze, in latitude 17° 52.' It was certainly a magnificent achievement, but it had been substantially anticipated by the Portugese, and has since been surpassed by the journey of Silva Perto. In 1806-11 two negro slaves, generally known as the two Pombeiros, traveled from St. Paul to the Portugese outposts on the Zambeze; and in 1853-4 Silva When such hopes perish. From that moment | Porto crossed from sea to sea, pursuing a route somewhat south of Livingstone's between St. Paul and the twenty-third meridian, and a long distance north of between the last-mentioned point Considerable interest and anxiety are dwarfs those of the Portugese and that

banking and currency, but he will pre- Tukey and his successors, and he had to sent no such bill unless instructed to do encounter the deadly malaria of the so by the committee, which is hardly west coast lowlands. His success is within reason. The principal officers in | little less than a miracle, and it gives to the treasury are opposed to the repeal, him at once the first rank among Afrithere are enough "weak-kneed" Repub- gists over since people became sufficiental licensi in the senate to make a majority ly civilized to decline to believe anyn favor of its repeal. He says if gold thing contrary to their personal expeils to one hundred and twelve, or be- rience. But we now know that the w that figure, silver change will be as story of the dwarf nation was true, and entiful as required. Senator Morton, it is not absolutely impossible that who is about half way between a hard- Cameron may have found that the story as yet to know whether langanyika connects with the Albert lake, and discover the mouth of Schweinfurth water in Lake Albert, and the stead set of the current northward in Tan ganylka are two facts which it is ex ceedingly difficult to explain, except o the supposition that the latter lake di charges into the former. That a part of the waters of Tanganyika flow throng the Lukuga, not the Lualaba, does n render it absolutely certain that the lab has mouths and its principal out let at the north. Cameron found th current in the Lukuga so slig

th his dreams he saw a face as to be hardly perceptible, and the beauty beamed with right and love, it may be that Tanganyika only fine an outlet in that direction at his water—just as Lake Itasca, the real out let of which is the Mississippi, flow over into the Red river of the north dur ing the spring freshets. This question has probably, before this time, been finally set at rest by Stanley, and, case the latter hears of the success Cameron before he undertakes-as was Lualaba, it is more than probable that pressed. It is a peculiarity of humorists, he will turn his attention to the Welle we are told, to be unaccountably mel- and finish the final task of African exancholy and gloomy at times. Harte ploration by descending that mysterious was in this mood now. One of the com- tiver to its mouth. If he does so, we mittee went in each of the scenes to see | venture to predict that the Welle will him, and the depressed humorist wel- prove to be not the Shary, as Schweinfurth imagines, but the Ogowai, and it is comed him as a gleam of unusual good sunshine. They shook hands-Harte earnestly to be hoped that Stanley's efdown the Lualaba without the support either of the English government or of the Royal geographical society. At this juncture Harte took the com. he reaches home, there is no doubt that this apparent but unintentional neglect of the gallant explorer will be more than Speke and Grant will be eclipsed by the reception which Cameron has so richly
